Claim 2 stands withdrawn from further consideration pursuant to 37 CFR

1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bensing et al.

Disclosed are wires 18 with exposed ends, terminals 16 having pairs of crimp arms 40 and 42 spaced from each other at an interval, the housing 10 being molded to the exposed wire end at the interval.

Claim 1 is objected to because of the following informalities: on line 5, "rowing" should be – spaced --. Appropriate correction is required.

The other references cited on Form 892 disclose similar molded connectors.
